Current Employment

Senior Software Engineer | **Interchain Foundations** | **March 2025 – Present**

- **IBC-go:** Interchain communication layer for Cosmos SDK chains.
- **IBC Eureka:** Rust implementation for IBC for Cosmos SDK and ETH chains.
- **Permissioned Chain:** IBC-enabled Cosmos SDK chain building platform for traditional financial institutions.

Technology Used: Go, Rust, Cosmos SDK, IBC-Rust, IBC-Go, Terraform, AWS

Previous Employment

Senior Software Engineer | **Seda** | **April 2024 – July 2024**

- **Public Key Registry:** A Cosmos SDK-based module that implements a registry of public keys used for VRF signing.
- **Wasm Filter:** An ABCI method to filter oracle WASM response.

Technology Used: Rust, Go, Cosmos SDK, GCP

Senior Software Engineer | **Umee** | **September 2022 – April 2024**

- **Stable Swap:** A cosmos SDK-based module implements a token swap for stablecoins, improving liquidity efficiency and reducing slippage.
- **CLAMM:** Concentrated liquidity automated market maker for better asset utilization.

Technology Used: Go, Cosmos SDK, IBC-Go, Pulumi, AWS

Senior Software Engineer | **Ignite (formerly Tendermint)** | **October 2021 – September 2022**

- **Price Oracle:** DEX aggregator. Designed core infrastructure. Improved performance.
- **Trace Listener:** Low-level trace capture and processor for Tendermint-based blockchains. Improved performance. Designed and implemented the concurrent trace exporter feature.
- Led a team of contractors and conducted technical interviews.

Technology Used: Go, Cosmos SDK, IBC-Go, Terraform, AWS

Technical Lead | **Mulytic Labs** | **April 2017 – December 2018**

Managed and led a technical team of 20 engineers distributed in **Dhaka, Munich,** and **New York.**

- **GDPR-compliant data pipeline and data warehouse**. I used Python, ELK stack, AWS, Lambda, and RMQ.
- **Electric grid frequency predictor**. I used Python, Go, Tensorflow, Elasticsearch, Flask, and AWS Lambda.
- **Brake pad failure predictor**. Used Python, Tensorflow, and NLTK.

Technology Used: Python, Go, AWS

Education

Sylhet, Bangladesh | **Shahjalal University of Science and Technology** | **January 2011 – September 2015**

- B.S.E. in Computer Science and Engineering. CGPA: 3.40. Thesis on NLP. Bengali keyword extraction.
- Undergraduate Coursework: Databases; Algorithms; Software Engineering; DS; Machine Learning; DSP.

Algorithmic Experience and Awards

- **Instructor (2013 – 2014):** Programming team, Sylhet Engineering College.
- **Third Prize:** 3rd prize at NSU National Inter-University Programming Contest 2013, out of 100 teams.
- **Tenth Prize:** 10th prize at IUT National Inter-University Programming Contest 2013, out of 110 teams.
- **Fifteenth Place:** BUBT **individual** programming contest, 2012.
